Passcode: 590059

Agenda:

1. Beach Volleyball – Schematic Design Review

Background: The purpose of this agenda item is to review the schematic design for the Beach Volleyball project to enhance the experience for beach volleyball student-athletes and to better improve the hosting of home matches and support facilities. The project proposes to construct a facility on-campus that includes three beach

volleyball courts, lawn seating areas, and infrastructure to support the beach volleyball program. Site features include a low, concrete seat-wall and grass berms for spectating, metal fencing (approximately 48” tall) on the north side only, and campus-standard lights. The beach volleyball courts would also be available for use by students when not being used by Athletics and in coordination with PE/Rec and intramural sports. Refer to the attached Site Plan for additional information.

The committee held one previous meeting regarding this agenda item on October 3, 2023. The previous meeting record is located here:

Action: The committee is being asked to determine if the **Beach Volleyball Schematic Design** is consistent with the *Campus Plan* and to formulate a recommendation to the President. Typically, the committee takes one of the following four actions:

1. Recommend for approval
2. Recommend approval subject to a series of conditions
3. Do not recommend approval
4. Delay action until a further meeting
