- **Eugene Land Use Applications**

Including potential Code Amendments,
Refinement Plan Amendments, Zone
Changes, and Alley "Vacations"

UNIVERSITY OF
OREGON

The University of Oregon is updating its East Campus Area Plan to accommodate the need for student housing, align with current state and city land use requirements, and maintain a transition between the university and the surrounding residential neighborhood. Phase 1 includes an 800-bed residence hall with dining facilities that will open in the fall of 2027. Phase 2 includes an 800-bed residence hall that will open in the Fall of 2028. After adopting the updated East Campus Area Plan, the university will apply for land use applications to amend the City of Eugene UO/Fairmount Special Area Study, amend the /EC East Campus Overlay Zone, and remove the /EC Easy Campus Overlay from a portion of land north of 15th Avenue (see map). In addition, UO will apply for two "alley vacations" to shift control and responsibility of portions of Moss Alley and Moon Lee Lane from the City to the UO to implement the long-term plan and allow construction of Phase 1.
