The front door to the CPFM Admin. Bldg. 136 will be unlocked starting Monday, July 6th from 7:30am - 4pm

The front door of D&C (Bldg. 130) will also be unlocked from 8am—5pm

POWER OUTAGE IMT AT WORK
On June 1st & 2nd, Jeff Butler, Judy Peters, Jim Cody and Vicki Strand monitored incoming calls during the power outage test. All went smoothly.
Phase II of returning to work began June 15th and a few of us returned to CPFM. It still remains fairly empty and everyone is masked up, but it’s a step towards what I hope will be returning to normal. For Mike and Tim, who never left, it’s some welcome relief from the silence in the Quonset. Below right, the first meeting in the Large Conference Room since March!

Ashleigh Sizemore will be leaving us on Friday July 10th. She’s off to Corvallis for a new adventure and we wish her the best. Tonya White will be coming back to campus starting Monday, July 13th from 8am—2:30pm, for July & August. I will cover the hours before and after.
With the unfortunate defacing of property on campus, more power washing is helping to keep buildings clean and beautiful. Here, Tony Thompson sprays away at Kincaid & 13th Avenue along the University Entrance. Looks Fantastic!
The Grow Pod Project

The grow pod project [https://cpfm.uoregon.edu/grow-pod] began two years ago with the donation of a shipping container to the Office of Sustainability, outfitted for indoor plant growing. In its second year, Briana Meier, sustainability graduate employee and Environmental Studies PhD candidate, led a collaboration between Jane Brubaker and Phil Carrol, of our campus landscaping team, and our Native American campus community to plant indigenous (and edible!) plants in the pod, and then re-plant them on campus, including around the UO’s Longhouse. The collage shows the camas flowers growing in the pod and then re-planted outside. Great way to increase sustainability!
Friendly Hall elevator project started in late May

Gene Mowery shared some pics from an earlier project in Allen Hall—Broadcast studio, podcast studio, immersive media lab (3D immersion) and social media lab. Pretty cool!
Diversity related events for July 2020

DEI resources: https://inclusion.uoregon.edu/black-lives-matter-campus-and-community-resources-information-messages
UO research resources: https://research.uoregon.edu/black-lives-matter-resources
UO Libraries anti-racism resources: https://researchguides.uoregon.edu/antiracism

Many people will have already found them, but it might be worth noting the Black storytelling collections launched on online streaming services:
- Netflix: Black Lives Matter
- Amazon Prime: Black History, Hardship & Hope
- HBO Max: Celebrating Black Voices
- Tubi: United Against Inequality

For people who don’t have these streaming services, Docuseek and Kanopy are available to all UO users. Kanopy has a Social and Systemic Injustice collection.

A huge thank you!

To: Debbi Davis

I wanted to take a minute to reach out to you and say thank you for all that you have been doing to help out our crew through all of this workshare confusion. I know I’m not the only one that really appreciated you taking the time to come in at night and help get the paperwork sorted, as well as answer questions that the crew had. Often times we feel like we are an afterthought on campus as we don’t normally get the opportunity to interact with the CPFM members that work during “normal” hours, and it was really nice to see that we hadn’t been forgotten. I especially appreciated the questions that you asked during the Zoom meeting the other day; I recognized that they applied to our crew specifically. So thank you again and I hope that you are having an excellent week!

Kayla Kemp
Custodial Services Coordinator - Graveyard

Subject: Special Thank You (Bob Peterson)

Mike & Jeff,
I wanted to take a minute and give special thanks on behalf of UOPD to your team member, Bob Peterson. He has been assisting us at the West University Sub Station this morning with a vandalism repair. Not only has he done a tremendous job, but his customer service and willingness to help are top notch. Please extend our sincere thanks from UOPD to him and really, your entire branch. Although we are living and working together in uncertain times, CPFM leadership and support has been excellent in each step along the way since my arrival.

Regards,

Benjamin McNulty | Director
Security & Support Services
University of Oregon Police Department

Subject: Power Washing

Donny;
I walked past the west side of the Library last night. The walls along Kincaid look terrific! I know the team has not yet finished, and will pivot to the north side walls in a day or two. I just wanted you to pass along that I think they are doing a great job, and the area around the Library has been transformed. I hope you have some great before & after pictures.

Michael A. Harwood, FAIA
Associate Vice President and University Architect

Subject: Re: Electric Outage - Continuity Planning - LCNI

The same person arrived at LCNI and reset the shunt trip breakers both mornings. We were able to discuss the cold head compressor operation and he spent several minutes while i got the system running yesterday. Today did not assist the system at all during boot up. It took close to an hour for the cold head compressor to start on its own. I appreciated the fact that the person doing the shunt trip reset came back to our office a couple more times this morning to confirm that everything booted successfully. I failed to get his name but he was very conscientious and I appreciated that very much.
