January 2019

HAPPY NEW YEAR EVERYONE!!

Another day & night winter celebration has come and gone. Here are some pics to remind you of the events. I'd like to give a shout out to someone who, while not on the committee, worked hard at both parties with a smile on his face the whole time: Jerimiah Igou. Thanks J!

Was it successful? I'd be interested in any polite feedback. Feel free to send comments or suggestions to: annecs@uoregon.edu. And thank you Mike for providing the opportunity to celebrate as a unit in a great venue with good food.

Many thanks to Kevin Wilson who continuously provides me with pictures such as these for your newsletter. Below, you have Tad Lueck dealing with a leaking roof, Kevin & Patrick Bolls moving the planer out of the cabinet shop, Ashley Mayfield cleaning leaves from up high, Josh Chadwick making sure we are level, and last but not least, Patrick, once again showing us his might! A lovely year-end collage!

Hi Eric,

I wanted to share some kudos with you and ask if you would please share/forward as appropriate. You can share my info or not – your choice. It seems like we usually just sent complaints or requests and a couple of things really stood out to me recently that I wanted to acknowledge.

An absolutely **HUGE** shout out to the COE grounds team. The leaves seemed relentless this year and the people who consistently work right around Lokey have done a phenomenal job of keeping the paths and lawns clear week after week. Overall, the COE grounds clearly show the pride they take in their work which really reflects well on the COE as a whole. If you would please express my thanks as well as a pre-emptive message of appreciation for the hours they will spend in the cold this winter keeping the paths safe again. There's always a cup of hot chocolate available for them in the EDST kitchen. *(The same goes for your students if they are working outside in the cold!)*

I have had an opportunity to chat with Antonio several times and he is always very friendly and cheerful in the heat or in the pouring rain. He is the person I do see working around Lokey every day but I didn't want to unintentionally leave others on the team out just because I haven't seen them.

I'd like to add that last winter, there was a homeless man sleeping outside Lokey when my daughter (UO student) and I arrived in the dark one morning. Antonio had just spotted him so he approached us and walked us to the Lokey exterior door to make sure we felt/were safe. The man was back the next night so he did the same thing but this time he stayed and we talked to the guy. We said he couldn't sleep here anymore but that before he left, he was welcome to come in and use the restroom, and that I'd give him a plastic bag for his sleeping bag. It was pouring and he literally had the clothes on his back and a sleeping bag. That was the first time I met Antonio and I was really impressed by how he handled the entire situation.

Thanks for passing on the kudos!

+++++
Please do so! I see Antonio Coello daily and his kind demeanor, smile (even in the worst weather), and his dedication is a reflection on how well the grounds are kept in and around the COE Complex. Antonio's efforts are greatly appreciated.

The [Diversity Development Fund](#) (DDF) is accepting applications. The parameters are very broad, the cost of the project can be small or large, and there are several application deadlines each year. If an idea is time-sensitive, the committee will do their best to review applications outside of the quarterly deadlines. The proposal should enhance diversity education within VPFA and benefit at least a few VPFA employees. If people have an idea but need help with the proposal, they can email vpfadi-versity@uoregon.edu for support.

LAST CHANCE!

Please remember to give to the organization of your choice. You can make a difference in the lives of people/animals in need.

Subject: FW: Thanks to Tucker

Good Morning Ken,

I'd like to recognize Tucker for a job well done here at the Rec Center. We had a front door that either intermittently would not lock or would not close at all. Tucker responded quickly, identified the problem which was extensive, kept us up to date of the situation and finally dug deep into your inventory to find the parts that he needed turning what would have been a 2 week wait into a next day repair. This is another example of the quality work that we experience from your team and we appreciate it.

Kudos,

Hi Tad,

Just wanted to thank you again for the quick turnaround on our request yesterday. The rubber floor base and carpet tiles were installed last night and the painters were in this morning putting the finishing touches on the lab. Really appreciate your team's great work and quick response.

Best,
Adam

Tim,

Just letting you know we are all amazed at how the floors look after your crew cleaned them. We didn't think it was possible for them to look this good after years of muddy boots. Every corner was taken care of. And it makes a huge difference to the atmosphere here.

Please pass on our thanks to the crew!

Hi Tim,

I wanted to say thank you for the extra care and attention to detail that Albert Aragon has been taking in tending to our data center's cleaning needs. This week he did an especially good job of cleaning out the stairwell leading down to the Allen Hall basement data center. This time of year we can get so many leaves and junk tracked in. It is really nice to have Albert tacking care of it. Can you see that his supervisor knows he is doing a great job please?
Thank you,

Subject: accolades to CPFM carpenter

Dear Jeff,

I wanted to let you know that the Oregon Humanities Center received excellent service from CPFM carpenter Neil Jordan today. Neil provided creative solutions for the installation of a digital display at our office. He was very patient as we asked for adjustments and changes. Neil is friendly, courteous, and professional. If we are ever in need of carpentry service again, I hope to work with Neil. Please share our gratitude with his direct supervisor. Thank you.

Best regards,
Peg
