Subcommittees

Transportation-Annie: the subcommittee met with Fred Tepfer of University Planning and we were reassured the bike parking issue is being addressed in the renovation areas. The Law School will have 104 spots with about one-third being covered. The issue about the EMU spaces that will not be replaced is due to the fact that there is already covered spaces along University Street that do no fill up.

-Annie suggested drafting a letter to the Planning Office, this letter suggests to always consider and promote bike parking in the planning stages.

-This subcommittee also met with David Niles (bike coordinator) and discussed mapping and numbering parking spaces. April 24th David will be heading the Bike Expo during Earth Week.

-A hearing will take place 4/2/98 to decide the parking fees for the next year. Annie circulated a letter (I am forwarding a copy of this to all EIC members) to the EI committee members present for review and approval to submit to Pam Daener, Hearings Officer.

Environmental Policy-Bev is continuing to work on the format, focusing on keeping it short (under 2 pages) and concise.
