Agenda:

1. 13th Avenue Redesign – Schematic Design Review

CAMPUS PLANNING AND FACILITIES MANAGEMENT

1276 University of Oregon, Eugene OR 97403-1276 <http://cpfm.uoregon.edu>

An equal-opportunity, affirmative-action institution committed to cultural diversity and compliance with the Americans with Disabilities Act

Background: The purpose of this agenda item is to review the schematic design for the 13th Avenue Redesign project.

As shown in the attached description, the schematic design addresses the half-mile segment of 13th Avenue between Kincaid Street and Agate Street, along with key campus entrances at 13th Avenue and Kincaid Street and 13th Avenue and Agate Street.

The project is informed by the Conceptual Design completed in August 2019 led by Walker Macy Landscape Architects. Additional information about the concept design can be found at: <https://cpfm.uoregon.edu/13th-avenue-axis-conceptual-design>

The schematic design establishes a design that will transform 13th Avenue into an exceptional pedestrian walking and bicycling experience on the university's primary east-west axis while still allowing limited vehicle access for service and emergencies. The design addresses circulation for all modes, stormwater treatment, street trees, lighting, seating, campus gateways, service vehicles, paving, etc.

The project is only funded through schematic design.

The committee has held two previous meetings regarding this agenda item on October 20, 2023, and June 11, 2024. The previous meeting records are located here:
