

# APPENDICES

## Appendix A: University of Oregon Mission

### University of Oregon Mission Statement

Serving the state, nation and world since 1876 The University of Oregon is a comprehensive public research university committed to exceptional teaching, discovery, and service. We work at a human scale to generate big ideas. As a community of scholars, we help individuals question critically, think logically, reason effectively, communicate clearly, act creatively, and live ethically.

#### *Purpose*

We strive for excellence in teaching, research, artistic expression, and the generation, dissemination, preservation, and application of knowledge. We are devoted to educating the whole person, and to fostering the next generation of transformational leaders and informed participants in the global community. Through these pursuits, we enhance the social, cultural, physical, and economic wellbeing of our students, Oregon, the nation, and the world.

#### *Vision*

We aspire to be a preeminent and innovative public research university encompassing the humanities and arts, the natural and social sciences, and the professions. We seek to enrich the human condition through collaboration, teaching, mentoring, scholarship, experiential learning, creative inquiry, scientific discovery, outreach, and public service.

#### *Values*

- We value the passions, aspirations, individuality, and success of the students, faculty, and staff who work and learn here.
- We value academic freedom, creative expression, and intellectual discourse.
- We value our diversity and seek to foster equity and inclusion in a welcoming, safe, and respectful community.
- We value the unique geography, history and culture of Oregon that shapes our identity and spirit.
- We value our shared charge to steward resources sustainably and responsibly.

## Appendix B: Oregon Experiment Principles

The University of Oregon's *Campus Plan* reaffirms the six basic principles articulated in *The Oregon Experiment* as the underlying premises of this Plan.

### **ORGANIC ORDER: The campus emerges through a process, not from a map.**

ORGANIC ORDER emerges gradually from separate actions guided by shared values and processes. This melding of individual actions into a cohesive whole comes not from a predetermined fixed-image map, but from the application of a process guided by explicitly debated and approved basic principles or "patterns," which articulate the shared traditions and understandings of the university community.

### **INCREMENTAL GROWTH: Development occurs in large and small pieces.**

The precept of INCREMENTAL GROWTH (originally known as piecemeal growth) acknowledges that the development of the campus occurs gradually as the result of individual acts of new construction, repair, rehabilitation, and remodeling taking place over time. The principle suggests that the campus needs both large and small projects and needs both new construction and repair that allow for continuous care and improvement in order to create a complete and healthy campus environment.

### **PATTERNS: Shared design statements guide the planning process.**

PATTERNS establish a means of articulating commonly held values about the campus environment. Patterns are design statements that describe and analyze project-related issues and suggest ways in which those issues might be resolved. Patterns that are to be considered and addressed at various levels are identified in appropriate places in this Plan.

### **DIAGNOSIS: Assessing existing conditions informs ongoing improvements.**

DIAGNOSIS establishes a process of periodic analysis or diagnosis of the present state of the campus to guide its repair and improvement. The principle of diagnosis is embodied in the provisions of this document related to Area and Site Diagnosis Studies and Academic Planning Coordination (which includes the *Biennial Capacity Plan*).

### **PARTICIPATION: User involvement must prevail throughout the planning process.**

The principle of PARTICIPATION is reaffirmed as the cornerstone of the university's planning process and is viewed as an extension of a long-established history of shared governance at the university. It occurs on each project (as defined by this Plan) principally through a user group appointed by the chair of the Campus Planning Committee. This principle also is embodied in the review processes articulated in this Plan.

### **COORDINATION: Working together benefits the campus as a whole.**

COORDINATION recognizes that the university as a whole has interests that must be represented, and that coordination of separate development activities is essential if they are to result in a cohesive campus. The Campus Planning Committee is charged with the responsibility for providing this function and is authorized to establish rules and procedures for discharging this responsibility.

## Appendix C: Assumptions

The *Campus Plan* is based on a number of assumptions:

1. The fundamental precepts of the university's mission will remain unchanged, and the University of Oregon will continue to exist as a quality institution of higher education.
2. Buildings and the spaces within them belong to the State of Oregon and are allocated for use by the university to various programs and activities within the university, in accord with the requirements of relevant Oregon Administrative Rules and Statutes. The physical plant of the university is intended to support the institution's mission, and it should be responsive to its programmatic needs.
3. Existing organizational and working relationships among the university, other state agencies, and local governments, will continue essentially unchanged.
4. Specific programs, enrollment levels, and environmental circumstances of the University of Oregon will change over time in ways and amounts that cannot be determined in advance within a meaningful degree of accuracy.
5. The University of Oregon will continue to be a part of the Eugene-Springfield urban community. Except as may be needed to accommodate a few specialized programs or activities, no major land acquisition will occur outside the presently approved campus boundaries.
6. The *Campus Plan* will meet applicable Oregon State Board of Higher Education's Administrative Rules and Internal Management Directives. (Refer to Appendix E.)

## Appendix D: Future "To Do" Items

In discussions about updating the *Campus Plan*, the items listed below were identified as appropriate subjects for consideration in the continuing discussions on university campus development principle. They are listed in no particular order.

1. Revise the *UO Long Range Campus Transportation Plan*.
2. Review ways to improve the link between the academic planning process and the physical development planning process. Develop strategies to review existing uses and establish a plan to maximize existing space based upon the Space Use and Organization principle refinements.
3. Build upon recent efforts (*Heritage Landscape Plan*) to develop more detailed analysis of the existing and desired campus character, in particular of open spaces. Determine how to extend these characteristics to newer areas of campus to create a cohesive campus environment. Pay attention to campus edges and town/gown interactions.
4. Better define development plans and principles for UO development outside the Approved Campus Boundaries as appropriate.

## Appendix E: Oregon State Requirements

In 2011 SB 242 was adopted (it became operative January 1, 2012). It redefined the Oregon University System as the public university system with more authority and independence to manage affairs, operations, and obligations. It exempts Oregon University System from certain laws relating to state agencies. It allows universities to be established as Independent Institutions of Higher Education.

In 2014 the University of Oregon became a public university governed by an independent board. A public university governed by an independent board has greater autonomy from the Oregon University System. Also, it is not considered a unit of local or municipal government or a state agency, board, commission or institution for purposes of state statutes or constitutional provisions.

This document is intended to comply with these requirements in a way that honors the established campus planning process.

## Appendix F: Planning Process to Update the Plan in 2005

The goal of the Campus Plan Update project was to update the 1991 *Long Range Campus Development Plan (LRCDP)*, while maintaining its fundamental concepts, so that it would effectively guide the next ten years of campus development.

The *LRCDP* was almost fifteen years old at the beginning of the update process. It had guided the university through an active period of development and improvements resulting in a noticeably enhanced campus environment. Although the fundamental concepts of the *LRCDP* remained effective, portions of the 1991 document needed to be evaluated for potential improvements, and outdated information needed to be revised.

The university's emphasis on user participation was evident throughout the update process and remains a key part of the updated *Campus Plan*. Opportunities for input began in the summer of 2004 with meetings among key campus and community members, who defined the scope of the update and the participatory process. A core Advisory Group representing faculty, staff, and students, the Campus Planning Committee, Facilities Services, and others served as a review body throughout development of the first draft. A wide range of individuals and groups reviewed the first draft between January 2005 and the Campus Planning Committee's public hearing on April 12, 2005. In addition to the public hearing, over twenty events and meetings were held including an open house, focus group meetings, a follow-up Advisory Group meeting, Campus Planning Committee workshops and meetings, key-party follow-up meetings, and presentations to the University Senate, Faculty Advisory Committee, and Space Advisory Group.

Following the public hearing, the Campus Planning Committee completed its review of the updated Plan, taking into consideration all input provided by interested parties. It forwarded a recommendation to approve the updated Plan to the university president, who provided final approval May 31, 2005. The final *Campus Plan* was submitted to the City of Eugene, which affirmed that the *Campus Plan* is in compliance with the *Metropolitan Area General Plan* on July 12, 2005.

Subsequent amendments followed the Plan amendment process (refer to Appendix K).

## Appendix G: Historic Standards for Rehabilitation

### Secretary of the Interior's Standards for Rehabilitation (Department of Interior regulations, 36 CFR 67)

1. A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.
2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
3. Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.
4. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.
5. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved.
6. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.
7. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.
8. Significant archaeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.
9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.
10. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

Note: The associated Guidelines for Rehabilitating Historic Buildings are available on the National Park Service web site, <http://www.nps.gov/tps/standards/rehabilitation/rehab/index.htm>. The Guidelines describe how to apply the Standards.

## Appendix H: Historic Resources

### Summary of Historic Rankings and Designations for Open Spaces, Trees, Structures, and Buildings.

Refer to Campus Planning website for a map and the most current list of Historic Resources. (*NOTE: This list does not include all individual landscape features such as educational and memorial trees, plaques, memorials and sculptures. Please contact Campus Planning and Facilities Management.*)

**Appendix J: City of Eugene Related Planning and Transportation Documents**

The university hereby adopts by reference (source: <https://www.eugene-or.gov/848/Studies-and-Adopted-Plans>) the following as they pertain to the University of Oregon and adjacent lands as they now exist or may hereafter be amended:

1. *Envision Eugene Comprehensive Plan and UGB Adoption;*
2. *Metro Plan (Eugene-Springfield Metropolitan Area 1990 General Plan) and Diagram;*
3. *Eugene 2035 Transportation System Plan;*
4. *Central Lane Metropolitan Planning Organization 2045 Regional Transportation Plan,* (source: <https://www.lcog.org/thempo/page/central-lane-metropolitan-planning-organization-2045-regional-transportation-plan>);

5. *19th and Agate Special Area Study*;
6. *Downtown Riverfront Specific Area Plan*;
7. *Fairmount/University of Oregon Special Area Study*;
8. *Riverfront Park Study*;
9. *Walnut Station Specific Area Study*; and
10. *West University Refinement Plan*.

## **Appendix K: Summary of All Amendments to the Campus Plan (since 2005)**

The Campus Plan includes amendments approved since 2005, which was the year that the 1991 Long Range Development Plan was replaced with the final version of the May 24, 2005 Campus Plan. It also includes editorial and typographical corrections intended to clarify the original intent of the document as well as updated facts and figures. The approved plan amendments address the following areas:

### **Related to the East Campus Area Plan Update and Next Generation Housing Development Plan for the East Campus Design Area - 2024**

Amendments to the open-space framework designated open spaces, pathways, densities, special conditions, design area descriptions, and corresponding maps/images in the East Campus Design Area.

### **Related to the Biennial Capacity Plan and Framework Vision Project and the Northeast Campus, Northeast Central Campus, Academic Center and Historic Core, and Southwest Campus Design Areas - 2023**

Amendment to open space, densities, and design area descriptions, special conditions, and corresponding maps/images in these Design Areas.

### **Related to the Framework Vision Project and the Southeast Campus Design Area - 2022**

Amendments to pathways, densities, and design area descriptions, special conditions, and corresponding maps/images in the Southeast Campus Design Area.

### **Related to the area southeast of the Franklin Circle Design Area - 2022**

Amendments to pathways, densities, and design area names and descriptions, special conditions, and corresponding maps/images in the design area previously known as Franklin Circle, expanding this design area, and renaming it the Franklin Triangle Design Area. This amendment incorporated the university's land southeast of the Franklin Circle Design Area.

### **Principle 1: Process and Participation, DAB (Design Advisory Board) - 2021**

Amendments to Principle 1: Process and Participation construction projects participants description: Campus Planning and Facilities Management (CPFM). Addition of the DAB description and reference to the DAB in the Track B flow chart Design step.

### **Related to the area southeast of the Jaqua Triangle Design Area - 2021**

Amendments to the open-space framework designated open spaces, pathways, densities, and design area names and descriptions, special conditions, and corresponding maps/images in the design area previously known as Jaqua Triangle, expanding this design area, and renaming it the Athletics, Student Support, and Administration Design Area. This amendment incorporated the university's land southeast of the Jaqua Triangle Design Area, including the Matthew Knight Arena and Ford Alumni Center.

### **North of Franklin Boulevard - 2020-2021**

Amendments to the UO campus boundary, open-space framework designated open spaces, pathways, an added form definition to open space types, densities, and design area descriptions, special conditions, and corresponding maps/images. The purpose of the amendments was to incorporate the

university's land north of Franklin Boulevard into the Plan.

#### **Density in Sub-area 36 of the East Campus Design Area - 2020**

Amendment to the density in Sub-area 36 of the East Campus Design Area. This amendment increased the maximum allowed density in a timeframe necessary to accommodate the Housing Storage Facility Project.

#### **Hamilton and Walton Residence Halls Transformation Project - 2019**

Amendments to the open-space framework, densities, and design area special conditions in Student Housing and Northeast Central Campus Design Areas.

#### **University of Oregon Model for Sustainable Development (OMSD) Update - 2018**

This amendment provided an update to the OMSD based on data gathered since 2011. The Energy and LEED goal sections were amended and a social equity section was added to the People goal.

#### **Bean Hall Addition and Renovation Project - 2016**

Amended Open-space Framework, Densities, and Design Area Special Conditions in Student Housing Design Area. This density amendment also enhanced the open-space framework in the area between Bean Hall, Hamilton Hall, the Ford Alumni Center, and the Matthew Knight Arena per the Campus Physical Framework Vision Project.

#### **Jane Sanders Softball Project - 2015**

Amendments to density for the Southeast Campus Design Area. This amendment changes the maximum allowed density to accommodate the Jane Sanders Softball Stadium Project.

#### **New Residence Hall Project (Kalapuya Ilihi) - 2015**

Amendments to the maximum allowed density for the East Campus Design Area. This amendment changes the maximum allowed density to accommodate the New Residence Hall Project south of Global Scholar's Hall.

#### **EMU Area Open-space Framework - 2014**

Amendment to the open-space framework in the Northeast Central Campus Design Area. The EMU Expansion and Renovation Project resulted in expansion of the open-space framework in the surrounding area. A new open space - EMU Green - was established.

#### **Central Kitchen East Campus Open-space Framework - 2013**

Amendments to the open-space framework on East Campus. The Central Kitchen and Woodshop Project, which is located in the East Campus Area, triggered the requirement to prepare and adopt an open-space framework plan for the affected area (the block bounded by 17th and 19th Avenues and Columbia and Moss Streets).

#### **Northeast Campus Maximum Allowed Density Technical Correction - 2013**

Amendments to density for the Northeast Campus Design Area. This amendment accounts for recently updated existing building measurements. The technical correction affects the maximum allowed density in the Northeast Campus Design Area.

#### **OMSD Incorporated - 2011**

This amendment incorporates refinements to the University of Oregon Model for Sustainable Development.

#### **Oregon Model for Sustainable Development - 2011**

The amendments to the Sustainable Development Principle are designed to improve and replace the university's 2001 Sustainable Development Plan. The OMSD was adopted to clarify the university's focus and to strengthen best practices based upon current knowledge. It addresses the unique aspects of campus buildings and landscapes by focusing on what matters most: energy, water, and people.

**East Campus Open-space Framework - 2010**

Amendments to the open-space framework on East Campus. The Global Scholars Hall project triggered the requirement to prepare and adopt an open-space framework plan for the affected area.

**Lewis Integrative Science Building Open-space Framework - 2009**

Amendments to open-space Framework for the Northeast Campus Design Area. The LISB project triggered the need to amend the campus's open-space framework. This included amendments to the Science Green and Agate Street Entrance Green open spaces as well as the establishment of a new open space, Franklin Boulevard Axis.

**Welcoming to All Pattern - 2009**

Addition of a new pattern related to diversity and inclusion. This ensures that the issue of diversity is considered during the project design to help create a campus that is welcoming to all.

**Historic Landscapes - 2008**

Addition of a new Historic Landscapes pattern and principle refinement. This addresses processes for identifying and documenting historic landscapes. They provide a framework for making decisions about preferred preservation actions and future development.

## Appendix L: Walking Circles - Additional Maps
