PART 1 – GENERAL

1.1 Design Summary
  a. Lactation Rooms
     • Lactation Rooms shall comply with AIA Best Practices Lactation Room Design Guidelines (February 2008).
     • Lactation Rooms shall comply with all applicable ADA Guidelines.
     • The addition of a lactation room shall be reviewed with Human Resources in all new and/or newly acquired
       UO buildings. Human Resources must be consulted regarding the necessity and feasibility of adding a
       Lactation Room prior to construction and occupancy. If, with Human Resources approval, a lactation room
       is not added to a new or newly acquired building, a plan to provide an appropriate lactation space must be
       created and agreed upon by the department and Human Resources in order to meet future Lactation Room
       needs.

     Human Resources Contact:
     Jen Mirable, Sr. HR Programs Coordinator, UO Human Resources
     Phone: 541.346.2195
     Email: mirable@uoregon.edu

1.2 Spatial Requirements
  a. Rooms shall be located in a safe, private, and accessible area to all.
  b. A minimum 7’ x 7’ footprint, allowing for a 5’ radius circle with 24” deep counters on two walls, including at
     least one area with clear knee space that is a minimum of 30” wide.

1.3 Other Requirements
  a. Access
     • The room shall be equipped with a lockable door with pin-access controls. Refer to Section 08 70 00 –
       Hardware for approved products.
  b. Acoustics
     • Sound dampening materials shall be included to minimize sound transmission.

PART 2 – PRODUCTS

2.1 Finishes

2.1.1 Flooring
  a. Resilient flooring material is required. Refer to Section 09 60 00 – Flooring.
  b. Approved materials
     • Linoleum Flooring – tiles or sheet good; Forbo (Marmoleum) preferred.
     • Rubber Flooring – tiles or sheet good; Nora or Mondo preferred.
     • Luxury Vinyl Tile – tiles; minimum 20mil wear layer
2.1.2 **Walls**

   a. Paint is the preferred wall finish. Refer to *Section 09 90 00 – Painting & Coating*.

2.1.3 **Casework**

   a. All casework shall have High Pressure Laminate matte finish with matching 3mm PVC edge banding.
   
   b. Countertop surfaces shall be a Solid Surface material.

2.2 **Storage**

   a. Contractor furnished (if casework) or Owner furnished (if free-standing/furniture solution)
      
      - Storage for paper towels and cleaning supplies.
      - A cabinet or shelving unit for storage of personal items.

2.3 **MEP Systems**

2.3.1 **Electrical**

   a. Duplex outlets
      
      - Near the chair
      - Above the counter (for microwave)
      - Below the counter (for refrigerator)

2.3.2 **Plumbing**

   a. A sink with a gooseneck faucet to wash bottles and pump components is required; Refer to *Section 22 40 00 – Plumbing Fixtures* for approved products.

2.4 **Furniture, Fixtures, and Equipment**

2.4.1 **Furniture**

   a. Owner furnished
      
      - One comfortable armchair. Refer to *Section 12 50 00 – Furniture* for seating durability requirements.
      - One side table. A minimum of 20” deep by 30” wide, or a minimum of 24” diameter for a circular table.
      - One personal task light.

2.4.2 **Fixtures**

   a. Contractor furnished
      
      - One full-length mirror.
      - Wall-mounted coat hook to hang a bag and/or clothing items.

2.4.3 **Equipment**

   a. Owner furnished
      
      - One compact, Energy Star-rated refrigerator.
      - One microwave.
   
   b. Contractor furnished
      
      - Paper towel and soap dispensers at sink; refer to the *Toilet Rooms* Appendix for approved products.
